Academic school: School of Nursing Midwifery and Health

Biography

Qualifying in 1994 in Trinity College Dublin, Ireland I have spend all of my Physiotherapy career based in West Midlands. I have been a proud member of the Physiotherapy team at Coventry University since 2002 and my role is primarily teaching musculoskeletal related subjects on the

BSc and MSc Programmes. My clinical interest is Men's health physiotherapy to include post radical prostatectomy rehab, colorectal surgery rehab, male pelvic pain and athletic pelvic dysfunction. These topics and women's health physiotherapy are also starting to become more prominent on our BSc & MSc programmes. I am a previous executive member of the MACP being involved in establishing their social media and podcasting channels. I have built several professional specific social media platforms and networks in both Women's health and Men's health physiotherapy. A career highlight was being invited to lead the Social media networking session at WCPT 2015 in Singapore. I have been invited to take part in the 1st Men's health physiotherapy Symposium at WCPT 2017 in Cape Town. Outside of the university I run a multi specialist Physiotherapy clinic to include pelvic health in Birmingham and also work with internationally recognised Pelvic pain expert Dr Ruth Jones in her Southampton Physiotherapy Clinic . I love Physiotherapy!

Qualifications

Please provide details of maximum 3 relevant qualifications. Include qualification level, subject area of study, place of study & year qualification achieved.

- MSc Musculoskeletal Physiotherapy, Coventry University , 2008
- MACP Membership 2006
- BSc Physiotherapy, Trinity College Dublin, 1994

Research

Current research is looking at the use of Ultrasound imaging to assess best practice in recruiting pelvic floor muscles in males. I am also involved in a patient information podcasting project on male and female pelvic pain. I also have some projects looking at impressions of final year UK Physio students of pelvic health physiotherapy, scope of practice of Men's Health physiotherapy in WCPT regions, how women's health physios are using Social media and the role of physiotherapy in erectile Dysfunction.
